Dear Ms. Brown:

Thank you for your letter of July 23, 1989 regarding EPA's proposed plan for cleanup of the Burlington Northern-Somers Superfund site.

On September 27, 1989, EPA's Regional Administrator, James Scherer, signed a Record of Decision which finalizes EPA's cleanup plan for the BN-Somers site. EPA has decided to excavate contaminated soils and biologically treat the soils in an on-site land treatment facility. Contaminated ground water will be flushed with hot water and treated, and then the aquifer will be further treated with an in-place biological treatment process. Pilot testing will be conducted on the ground water treatment process to ensure its practicability at the Somers site.

Your comments, and those of many other interested parties, were taken into consideration in EPA's final decision on the cleanup plan. All public comments were entered into the Administrative Record file for the site. A Responsiveness Summary, which contains EPA's responses to all of the comments received on the proposed plan, is contained within the Record of Decision. The Record of Decision is available for public review at the following locations:

Somers Central School Library
School Addition Road
Somers, Montana 59932

416490

Please feel free to contact me if you have any questions about the Record of Decision or EPA's response to your comments. Effective October 15, 1989, the EPA project manager for the Somers Superfund site will be Jim Harris. Both Jim and I can be reached at (406) 449-5414, or toll-free via the State Superfund hotline at 1-800-648-8465.

Again, thank you for your comments.

Sincerely,

Stephanie Wallace
Remedial Project Manager
